

LEE YDIA LAU

MULTIDISCIPLINARY DESIGN PROFESSIONAL

+60 16 773 6746 | leeydialau0125@gmail.com | linkedin.com/in/lauleeydia/
Selangor, Malaysia | Open to opportunities in Singapore

PROFILE

Architecture-trained design professional with 4+ years of experience across 3D visualisation, branding, and design coordination. Skilled at translating complex briefs into clear visual stories, aligning stakeholders, and delivering within real-world constraints. Currently applying these skills to AI-assisted product development, UX flows, requirements, and rapid prototyping.

PROFESSIONAL EXPERIENCE

FOUR D STUDIO | Visual Communication Agency

Jan 2024 - Present

3D Artist

- Produce architectural visualisations that translate drawings and design references into clear representations of space, materials, lighting, and atmosphere.
- Collaborate with designers and clients to refine briefs, incorporate feedback, and align imagery with project goals.
- Manage iterative workflows and deadlines while maintaining quality, detail, and clear communication.

AVANT-X | Marketing & PR Agency

Feb 2022 - Sep 2023

Brand Experience Executive

- Managed brand and campaign projects for retail, hospitality, and food-tech clients including Tsutaya Books Malaysia, Huckleberry Hospitality Group, Jade Pavilion, Freshable, and TiffinLabs.
- Conducted market and audience research to inform positioning, messaging, and campaign direction.
- Translated client objectives into creative briefs and coordinated designers, copywriters, suppliers, and partners through delivery.
- Planned campaigns, workshops, and events while managing stakeholders, progress, and timelines.

PING NG ARCHITECT | Architectural Consultancy

Jul 2021 - Feb 2022

Assistant Architect

- Conducted site, context, and user analyses to support responsive design decisions.
- Contributed to design development, technical drawings, and tender documentation.
- Coordinated design revisions and consultant inputs to maintain project clarity and delivery progress.

SELECTED PRODUCT PROJECT

AI-ASSISTED PORTFOLIO WEBSITE | Personal Product Project

2026 - In Development

Product Concept, UX Direction & Content

- Defined the concept and PRD for a 2.5D interactive portfolio, including information architecture, user flows, interaction states, responsive behaviour, accessibility, and acceptance criteria.
- Used AI-assisted workflows to iterate on requirements, visual assets, and UX decisions, progressing the project from concept to implementation-ready direction.

EDUCATION

TAYLOR'S UNIVERSITY

2018 - 2021

Bachelor of Science (Honours) in Architecture | LAM Part I | CGPA: 3.31

Taylor's Excellent Award - RM35,000 tuition fee waiver
